Biden still will pick Klobuchar as VP even after her failure to deal with cops that had like 18 complaints that went on to incite a riot. Mind it got to riots because cops tear gassed peaceful protestors so now it's just gotten apeshit, it's a vicious fucking loop. They start peaceful, than tear gas a bunch of folk than panic sets in and guns start coming up.

(6) Most think looting and rioting are justified

We have many blacks, mostly refugees from Africa. And there are black people living in Anatolia since 16th century, Turkish citizens since ages, their numbers are close to 50000. I never heard they are stirring shit up or chimping out.

The problem is the racist & authoritarian American police. Not blacks.
